

Claude Certified Architect Professional

Score Report

CANDIDATE: Vipin Kumar

CANDIDATE ID: ANTH341230

REGISTRATION NUMBER: 543239193

EXAM: Claude Certified Architect Professional

DATE: Sunday, August 9, 2026

SITE NUMBER: Proctored

EXAM CODE: CCAR-P

This report shows the percentage of items in each section you answered correctly for the Claude Certified Architect Professional

PASSING SCORE: 720

YOUR SCORE: 401

GRADE: Fail

TEST OBJECTIVES	PERCENT CORRECT
Translate business problems into Claude-based AI solutions	0%
Design end-to-end architectures (input → processing → output → feedback loops)	100%
Select appropriate architectural patterns (workflow, agentic, augmented LLM)	0%
Apply decomposition techniques for complex problem solving	0%
Align solutions to business value pillars (efficiency, transformation, productivity, cost, SLAs)	50%
Select appropriate Claude models based on trade-offs	67%
Design system prompts, templates, and guardrails	100%
Apply prompt engineering techniques (zero-shot, few-shot, chain-of-thought, etc.)	100%
Evaluate tool/agent configuration for capability bloat	50%
Analyze authentication and authorization requirements to identify security gaps	0%
Evaluate accuracy-latency tradeoffs and justify configuration decisions	0%
Analyze observability challenges and select monitoring strategies at scale	0%
Apply retrieval strategies matched to data shape and query pattern	100%
Evaluate connection protocols and select the appropriate integration mechanism	0%
Define evaluation metrics (accuracy, latency, cost, safety, security)	100%
Design evaluation datasets and test frameworks using a mix of testing methodologies	0%
Conduct A/B testing and iterative improvements	0%
Optimize token usage, latency, and cost-performance trade-offs	50%
Implement guardrails and safety controls	0%
Apply human-in-the-loop validation strategies	0%
Ensure compliance with regulations (e.g., GDPR, HIPAA, FedRAMP)	67%
Address ethical AI considerations (bias, fairness, transparency)	67%

Conduct structured discovery and requirement gathering	100%
Communicate architectural decisions and trade-offs	71%
Manage stakeholder feedback loops and expectation alignment (including SLAs)	0%
Document architectures and provide implementation guidance	0%
Support lifecycle phases (discovery, design, handoff, monitoring, iteration)	33%
Configure Claude tools and environments for teams (e.g., Claude Code)	17%
Improve developer workflows using AI-assisted tooling	67%
Support debugging and operational issue resolution	0%
